GitHub:<https://github.com/l1keafox> - Portfolio:<https://l1keafox.github.io/reactFolio>

Experienced computer security expert with full stack development skills looking for a team to learn, grow and contribute with.

Projects:

Bubble Dungeonz

<https://bubbledungeonz.herokuapp.com>

A platform for game developers to host multi/single player games to interact with other users. Features a multiplayer bubble popping game, saved chat groups and customized display settings. A group project of 5 people, I came up with the idea and led the team as product owner. I also created a game engine for multiple instances of games to run simultaneously.

Technologies used : React, Express, JWT, MongoDB/Mongoose/GraphQL, Socket.io, Canvas api.

Middle Where

<https://limitless-temple-38712.herokuapp.com>

A web app to find a centralized location for a group of friends. Users can create accounts and login, using google maps to display location of friends and the central meeting spot. A group project of six people, I came up with the idea and led the team as product owner.

Technologies used : Express, Express-Handlebars, Express-Sessions, Mysql/Sequelize.

Real Time Commodities

<https://l1keafox.github.io/RealTimeCommodities>

A web app that will pull commodities news/prices through an API call. Uses google graphs to show history of commodity prices. A five person group project, I was responsible for pushing for MVP and assisted with the javascript and api setup.

Technologies used : HTML, CSS, Javascript, Google graphs, commodities-api.com.

Education

University of Denver

July - Oct 2022.

Full Stack Developer

University of Colorado at Boulder

Fall Semester 2007

Computer Science Major

Languages/Skills	Frameworks
Javascript, C, C++, HTML, CSS, Actionscript	React
Windows / Linux operating systems	Node
Cyber Security / Malware hunting	Github
Assembly language / Malware Analysis	Mongoose, MongoDB, GraphQL, Apollo
Implemented sophisticated network of autonomous workers	Express
A+ certified	Socket.io
Google Fu	Agile

Work Experience

Webroot Inc.

Senior Threat Researcher Analyst

Sept 2014 - Sept 2022

- Using my drive to learn more about cyber security, I worked my way up from technical support, advanced malware removal to threat research.
